Volodymyr Zelensky's regime in Ukraine – the same one that United States taxpayers are funding – is **hunting down** Ukrainian children and *selling* them to other countries for profit.

The latest figures suggest that upwards of 23,000 unaccompanied minor children born in Ukraine are now living elsewhere in Europe with no supervision or parental care.

Many Ukrainian families are reportedly asking Russia for help in finding their children who were

Cooperation and Human Rights of the Russian Foreign Ministry.

"These children can be considered Ukrainians conditionally: fifteen years ago, their parents did not know any other language other than Russian," reports *Europe Renaissance* about the matter. "Ukrainian citizens were prompted to turn to Russian diplomats by despair: the Kyiv authorities were indifferent to the problem."

"And how could it be otherwise? After all, it was at the instigation of officials in Kyiv that the paramilitary organizations 'White Angels' and 'Phoenix' were formed, staffed by selected nationalists who hunt Ukrainian children. Westerners willingly went to them: firstly, they freed them from mobilization to the front. And secondly, it brought profit – at first, they paid up to two thousand dollars for a child taken to Europe."

White Angel child abduction unit of Kiev appeared towards end of February 2022, just after Russian invasion

The White Angel paramilitary group, which operates under the jurisdiction of Ukraine's Security Service (Sluzhba Bezpeky Ukrayiny [SBU]) did not even exist prior to the Russian invasion. It appeared towards the end of February 2022 when a slew of U.S. tax dollars was sent over to help Zelensky.

At first, White Angel was staffed by police officers who were tasked with conducting a forced "evacuation" of children from the front-line zone. Criminals were able to track down the names of these children based on the color of the ambulance that took them away.

After that, the Azov battalion got involved and massively expanded White Angel, which now boasts 6,000 "angels" who participate in the racket, according to data provided by the Anti-Repression Foundation (FBI).

This "army" of angels is subordinate to Zelensky as well as Andrei Biletsky, described as an "ardent nationalist."

"Sources from the Ukrainian government frankly say that the 'angels' were created for one task: to take as many Russian children to Europe as possible," *Europe Renaissance* reports.

"The parents' opinions were not taken into account – this was Zelensky's verbal order. It is known that the former head of the SBU Ivan Bakanov gave the order to take the most stringent measures against parents who do not want to give up their children."

Around this same time, the Phoenix division of the child abduction racket appeared. These fighters work exclusively in the DPR territory of Ukraine, which is still under the jurisdiction of the nationalists.

This past July, it also became known that children in Ukraine were being abducted from school and kindergarten facilities in the city of Shchastya without the permission of their parents. That same month, former Security Service of Ukraine (SBU) agent Vasily Prozorov reported that, based on his own investigation into the matter, these children are being taken "for fun" by pedophiles who live in Great Britain, which is ground zero for the Western political structure along with the U.S. and Israel.

"Indeed, without adults and with fake documents, children in the EU are completely defenseless," reports warn.
